

QUALITY, ENVIRONMENT, HEALTH, AND SAFETY POLICY

Danieli Corus India Pvt. Ltd. (DCI) provides solutions for engineering and construction and service of industrial plants by adopting Industrial practices that lay down stringent requirements related to Quality, Environment, Health, and Safety (QEHS).

QEHS is an integral part of our business principles which guide us to deliver technology and services that are safe, compliant, and sustainable.

We continually interact with our customers in order to understand their needs and strive to perform better every time. We promptly implement sustainable improvements in our operations to keep our technology and services best in class and up-to-date with state-of-the-art facilities.

Ownership & engagement

At DCI, teamwork, integrity, engagement, ownership, and support are vital to achieve our Quality, Environmental, Health, & Safety (QEHS) objectives. We encourage our employees to be entrepreneurial and pro-active. Our employees display a positive and never give up work attitude, act responsibly, and work as a team.

DCI's Quality, Environmental, Health, & Safety Objectives

- DCI's management provides safe and healthy working conditions for prevention of work-related injury and illness by monitoring QEHS objectives at relevant department level.
- DCI's management encourages its employees to promote Quality, Environmental, Health, and Safety objectives and norms to workers, worker representatives, and interested parties through training on relevant standards and communication of QEHS objectives and norms established at DCI.
- DCI's management focuses to improve customer satisfaction by striving to meet customer expectations and creating a quality mindset among its employees with an objective to develop, implement, and maintain technology and services of the highest quality.
- DCI's management ensures compliance with all contractual needs and requirements by fulfilling statutory, regulatory, and internal requirements.
- Our employees are committed to protect environment by using sustainable resources.
- DCI's management works transparently and strives to establish long-term relationships with its stakeholders.
- DCI's management strives to complete projects within budget, within schedule, and to the satisfaction of its stakeholders.

To achieve the aforementioned objectives and increase the success rate, eliminating hazards and reducing QEHS risks through risk management is important for every project.

Continual Improvement

QEHS excellence at DCI is achieved by working according to our QEHS processes and by continual improvement. Each employee at DCI understands how one can contribute towards QEHS improvement.

At DCI, results are monitored according to the QEHS objectives and improved until desired excellence is achieved. Knowledge sharing, good engineering practices, and value engineering are actively pursued at DCI for continual improvement of the QEHS management system.

The Management ensures that this QEHS Policy is understood, published, and communicated, and its objectives are reviewed annually to update the suitability of its provision and purpose.

This QEHS Policy is applied within all functions of the organization and is available to interested parties.
